

Prestige casement and awning windows are packed with features that clearly emphasize performance, while improving the aesthetic appeal of any home. Don't settle for the ordinary. You deserve the spectacular Prestige Collection from Vinylmax.

Hardware Highlights

- * Fusion welded frame and sash corners are secure, weathertight and never pull apart.
- * Multi-chambered vinyl frame is energy efficient, maintenance-free and lasts a lifetime.
- * Double paned insulated glass produces optimal energy performance.
- * Intercept Warm-edge spacer system has proven seal integrity and conducts less heat and cold than other systems.
- * Double compression seals create a water and weathertight seal around the entire opening.

- * Maximum strength operating hardware effortlessly handles the weight of even the tallest sashes with smooth, quiet operation.
- * Crank handle subtly nests into the operator housing to prevent interference with window treatments.
- * Multi-point locking system secures the sash tightly into the frame in several locking locations with a single lever.
- * Color matched screen features a sturdy aluminum frame and fiberglass mesh.
- * Sashes open a full 90 degrees for both maximum ventilation and for cleaning both sides of the glass from inside the home.
- * Variety of styles, decorative colors, glass and grid options available.
- * Transferrable Limited Lifetime Warranty.

Operating hardware is designed to carry a heavy load. Smooth operating crank handle folds flush into the housing so it doesn't interfere with window treatments.

Multi-point lock is activated by a single lever. Multiple contact points lock the sash securely in the frame.

All Vinylmax windows with an optional IntelliGlass package carry the ENERGY STAR label for energy efficiency.
